

# DIAMONDS ARE FOREVER

## Welcome!

You are, at this moment standing, right in the middle  
of your own 'acres of diamonds'  
Earl Nightingale

It is more than 25 years ago since a Diamond was born in Amsterdam under very special circumstances in a very challenged Europe full of hope. This diamond was called PIfE and its mission was to spread its light, strength and brilliance into all the corners of Europe. Already in 1999, this diamond understood that change is the only constant. This resulted in a conference in Budapest the same year. The sign from the diamond was clear: Be prepared, the world changes rapidly and we need to adjust. PIfE will continue to change in order to survive and make sure the beautiful diamond will have a mission for many years to come and as well will provide the foundation for the development of our organization and integration of new knowledge and skills. The world has moved giant steps since PIfE saw daylight in 1989.

# Welcome to Vilnius and our next PIfE Conference!

- ▶ *This conference is about keeping the diamond and strengthen it by applying the new knowledge and development about the world.*

- ▶ *Only a true diamond will survive. Those are the ones that resonates within each of us, the ones that create a spark within our soul and bring hope into our lives in a challenged Europe.*
- ▶ *PIfE will always be the diamond in our organization and with its beauty and strength we are ready to meet the world with new knowledge and skill in a constantly changing Europe ...*

# Topic of conference

- ▶ The very strong symbol in Human society may represent very different aspects of our lives. Have you heard the saying "even Diamonds start as coal". We want to invite psychodramatists to explore the topic of "Diamond and Carbon" - Value and Simplicity. The subtopics for this meeting are following:
- ▶ the Price in life for creating, buying, getting very valuable things - education, valuables, property.
- ▶ Simple things in life may create most valuable items. Just by setting it differently.
- ▶ There are certain objects (diamonds, pictures, messages etc.) that we want to be saved even after our passing, for the next generations.
- ▶ Real of Fake - one of the hardest issue. Only people with skill and attention may differentiate it
- ▶ Trees have to fall, burn and linger and be discovered - only then the Diamonds come.
- ▶ People 120 000 years ago passed the greatest Revolution - Cognitive revolution. Fantasy and fictions came to reality. And still the brain with it's plasticity stays as Diamond to be discovered.
